

Summer Reading and Math

Dear Parents,

Please remember summer is not a vacation from attending Church and prayer; it is most important that we continue sharing our faith with our families and friends. We are looking forward to welcoming you and your child to Second Grade. While you are enjoying your summer, please remember to have your child practice their reading skills. Whether it is reading to them, reading with them, or just listening to them read, reading will not only keep them in tip-top shape for 2nd grade, but it is a great way to spend time together as a family.

This summer, your child will be required to continue on the iRead program for a minimum of one hour a week. Please note that this program needs to be done on a continuous basis, if not, it will reset to the beginning and any work your child has completed will be deleted. Upon returning to school, I will be able to monitor the progress they made throughout the summer. Also, it is equally important that your child review their Math skills. Please have them log into Mathletics to complete their math goals before school begins in August. Enclosed are their username and password to both iRead and Mathletics.

Thank you for your support and cooperation.

Have a blessed and safe summer.

2nd Grade Teachers
